

# CALIFORNIA JUDGES ASSOCIATION

*The Voice of the Judiciary*

Dear CJA Members:

Over the past several weeks, CJA's Committees and our Judicial Branch Information and Support Working Group have reviewed the most recent concepts under consideration by the Futures Commission and have submitted the following attached comments on behalf of the association. [They are available for download here.](#)

This is CJA's third response to concepts proposed by the Futures Commission -- to view past comments, please visit the CJA website ([Download here.](#))

Also for your consideration, we attach a link to the letter signed by several presiding judges and court executives specifically addressing comments on Concept 9: Improve the Consistency, Predictability, and Portability of Trial Court Employment ([Download here](#)).

The next public meeting of the Commission will be Monday, August 29, 2016 at the Los Angeles Airport Marriott, Chicago/Dallas Meeting Rooms, 5855 West Century Boulevard, Los Angeles, California 90045 ([Map](#)) As we've previously suggested, you as individual judicial officers can help us by continuing to monitor the work of the Futures Commission and by sharing your thoughts and concerns with your CJA Board representatives.

Thank you for your interest and support,

Judge Eric C. Taylor  
President

California Judges Association, 2520 Venture Oaks Way #150, Sacramento, CA 95833
